Dear Alan,

The Scottish Women's Hospitals

Thank you very much for giving such interesting and informative talks in Peebles. The attendance of seventy pupils at the High school and sixty five members of the public at the Chambers institution demonstrated the level of interest in the Scottish Women's Hospitals. The feedback received has been incredibly positive, with one pupil from the High School saying how impressed she had been by the authenticity and immediacy of the material in the talk and your enthusiasm and interest which was inspirational for her and her friends.

Feed back from the talk at the Chambers Institution in the afternoon was uniformly positive and I am adding a few of the comments given as feedback below.

Thank you very much – very important history we should all know about.

Absolutely fascinating event.

A very moving video, very well presented.

Very emotional, fascinating and interesting, very well presented film and talk.

Social history at its best.

Thank you once again for coming to Peebles and providing such an excellent presentation.

Best wishes,

Rosemary Hannay
